Professional Summary

Frontend-focused software developer with 3+ years of experience building modern web applications with React, Next.js, and TypeScript, alongside Shopify storefront development and React Native/Expo mobile apps. Currently leading web development and technical coordination at Cultre Boat across client Shopify stores, a cross-platform mobile app, and web deployments. Strong problem-solver and team player with a track record of shipping reliable, well-tested features.

Technical Skills Set

Languages: JavaScript, HTML, CSS, TypeScript.
Frameworks: React.js, Next.js 15, React Native (Expo), React Query, React Hook Form + Validation.
E-Commerce: Shopify (Liquid, Theme Customization, Impulse & Minimog themes), Schema/SEO markup.
Styling Libraries: Tailwind CSS, shadcn/ui, Bootstrap.
State Management & API: React Context API, Redux, REST APIs, Fetch/Axios.
Routing & Responsive Design: React Router, Next.js File-based Routing, Media Queries, Flexbox, CSS Grid.
Monorepo & Build Tools: Yarn Workspaces, Turborepo, EAS Build, Code splitting, Lazy loading.
Version Control & Deployment: Git, GitHub, Sourcetree, Vercel, npm, Yarn.
Soft Skills: Effective communication, Problem-solving, Team collaboration.

Experience (3+ Years)

Web Developer & Manager — **cultreboat.in**
Cultre Boat, Delhi, India — **Apr 2026 – Present**

- Lead frontend development and day-to-day technical coordination across multiple concurrent client engagements spanning Shopify storefronts, a React Native mobile app, and web deployments.
- Manage and maintain multiple live Shopify stores concurrently, handling ongoing feature requests, bug fixes, and performance improvements across clients.
- Delivered end-to-end Shopify storefront builds, product-page redesigns, and SEO/schema markup improvements for multiple fashion and D2C brand clients.
- Contributed to a React Native/Expo mobile app built in a Yarn/Turbo monorepo, resolving API integration and build/dependency issues, implementing KYC step-navigation logic, and configuring EAS builds.
- Managed a client website's deployment pipeline on Vercel, diagnosing and resolving Git/GitHub authentication issues blocking auto-deployments.

Web Developer — **rewardsplus.in**
Appziaa Softlabs Pvt. Ltd., Delhi, India — **Oct 2023 – Mar 2026**

Frontend Developer (Oct – Dec 2023), promoted to Web Developer (Jan 2024 – Mar 2026).

- Built 12+ reusable, responsive UI components using React, Next.js, and TypeScript, improving load time by 30% and team productivity by 40%.
- Optimized Redux state management, boosting performance by 25% and reducing bundle size by 15%.
- Resolved 20+ UI issues using Git and browser DevTools, maintaining 99% feature stability.
- Contributed to code reviews across 15+ pull requests, helping improve overall code quality.

Projects

E-Commerce Storefronts
Tech: Shopify, Liquid, Theme Customization, Responsive UI, SEO/Schema Markup

- **zevar by Geeta** (zevarbygeeta.com) — Built and customized the Shopify storefront and integrated Fastrr COD/RTO, Meta Pixel, and Wigzo. Supported the store's commerce and marketing workflows.
- **Lizpaul** (lizpaul.in) — Developed the Shopify storefront and worked on SEO/schema improvements, including Product, LocalBusiness, and FAQPage structured data and AI search visibility.
- **Amayra Jewellery** (amayrajewellery.com) — Developed and customized the online jewellery storefront. Worked on presenting product collections and product information in a consistent shopping experience.

- **The Koe Beauty** (thekoebeauty.com) — Built and customized the Shopify storefront for a beauty brand. Focused on responsive storefront presentation and product browsing.
- **Kelby Huston** (kelbyhuston.com) — Developed the Shopify storefront and customized its online shopping experience across key store pages.
- **Canadian Pine Pollen** (canadianpinepollen.com) — Worked on the e-commerce storefront and its product-focused shopping pages. Supported a clear, responsive browsing experience for customers.
- **Nature's Soul Shop / Miri Kiri** (Miri Kiri collection) — Worked on the collection page and product discovery experience. Helped present the collection in a clear, customer-friendly storefront layout.
- **Amiraah India** (amiraahindia.com) — Worked on the e-commerce storefront and its product presentation. Supported a consistent shopping experience across the website.
- **Healix Scrubs** (healixscrubs.com) — Worked on the online storefront for medical apparel. Focused on product browsing and responsive presentation of store content.
- **Samatvam** (samatvam.in) — Worked on the e-commerce website and its product-focused pages. Supported a clean storefront experience across common browsing sizes.
- **Aashima Behl** (aashimabehl.com) — Worked on the fashion storefront and product presentation. Helped maintain a consistent, responsive experience across store pages.
- **Kalista Studio** (Terms and Conditions page) — Worked on the website's terms and conditions page and its integration with the storefront's informational content.
- **NeverOwned** (neverowned.in) — Worked on an e-commerce marketplace focused on open-box products. Supported storefront customization and the product-browsing experience.
- **Knick Knack** (knickknack.online) — Worked on the online shopping storefront and website customization. Supported product discovery and a straightforward customer browsing experience.

KL University Website kluniversity.in

Tech: Next.js, React.js, JavaScript, HTML, CSS

- Worked on the university website built with Next.js, supporting the presentation of academic programs, admissions information, and institutional content.
- Contributed to frontend page development and responsive UI improvements to help users navigate university information across devices.

RewardsPlus Android App Google Play

Platform: Android application

- RewardsPlus mobile app listed on Google Play, supporting the company's digital customer and rewards experience.
- Contributed to frontend development and maintenance as part of work on the RewardsPlus platform; link included for direct review of the published app.

Educational Qualifications

Bachelor of Technology in Computer Science and Engineering
Future Institute of Engineering and Technology, Bareilly 2019 – 2023
